Note: All the above Air-cooled Fluid Coolers have been installed in the past few years. Most of these coolers are in replacement of cooling towers and shell and tube heat exchanges as well as radiators but some are absolutely for new Diesel Engine Gensets. These Air-Cooled Fluid Coolers are known for negligible maintenance in comparison with cooling towers. The Air-Cooled Fluid Coolers are most trouble-free product. The Air-Cooled Fluid Cooled are being manufactured in our most modern plant. Our products are known for its quality, reliability and high performance.
